Languages

- Arabic - Native
- English – C1

Hobbies

- Reading Books
- Learn new things
- Playing Football

Summary

I am student in faculty of computers and AI in 3rd year Bnsweif University
I am Data Analyst skilled in Excel, Power BI, SQL, Tableau, and Python
I am also interested in Data Science, Machine Learning and AI.

Skill Highlights

- Microsoft Excel
- Power BI
- Microsoft SQL Server
- Ability to Work in a Team
- Tableau
- Python
- Communication Skills
- passionate learner

Projects

- Report for product sales dataset with Dashboard in Excel
- Report for Employees dataset with Dashboard in Excel
- Report and Dashboard for movies dataset with Tableau
- Data Exploration for COVID 19 dataset with SQL
- EDA for Staff salaries dataset in SF with Python
- EDA for e-commerce Customers dataset with Python
- Time series analysis project with python for multi timeline dataset
- EDA for Websites visits dataset with Python and Report with Power BI
- EDA for world cup 2022 dataset with Python and Report with Power BI
- EDA for Library dataset with Python and Report with Power BI
- EDA for credit-card-clients dataset with Python and Report with Power BI
- Dashboard for sales with tableau
- Dashboard for Countries Population with Power BI
- Dashboard for Employees dataset with Power BI
- EDA for Coffee Data dataset with Python and Report with Power BI
- EDA for Films Dataset with SQL
- EDA for Online Retail dataset with Python and Report with Power BI
- Data Analysis Project with SQL for Olympics Dataset
- EDA for Sales dataset with Python and Report with Power BI
- EDA for FIFA cup world dataset with Python and Report with Power BI
- EDA for Amazon Sales dataset with Python and Report with Power BI
- EDA for Unicorn Companies Data dataset with Python and Report with Power BI
- EDA for India Engineering Colleges with SQL
- EDA for Bike Store Sales with SQL
- Sales analysis using power query, power pivot, pivot table in Excel.
- Dashboard for Online Retail dataset with tableau
- Bike Store Analysis Report Using Power Pivot , Power Query and Pivot Tables
- EDA for startup expansions dataset with Python and Dashboard with Power BI
- EDA for Covid19 dataset with Python
